

Democratize Metrics with Grafana

- Metrics everyone can see
- Visualizations anyone can build
- Mix and match data sources
- In an open source platform

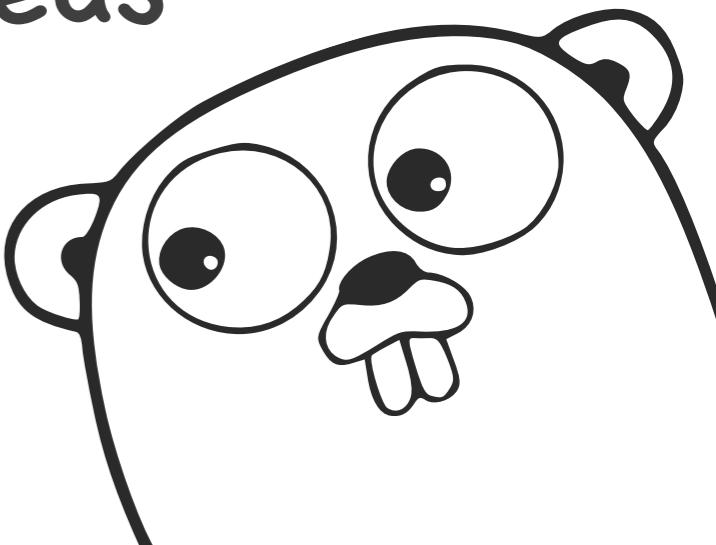

Grafana 1.x

- Front-end application. Stores all dashboards in ES.
- Initially only supported graphite
- Graph and single stat
- Influxdb was added.
- Opentsdb was added

Grafana 2.x

- Backend (Go)
- Store dashboards in DB (sqlite/mysql/postgres)
- User, permissions, orgs
- API
- Elastic, CloudWatch, Prometheus
- Table Panel
- Mixed DS

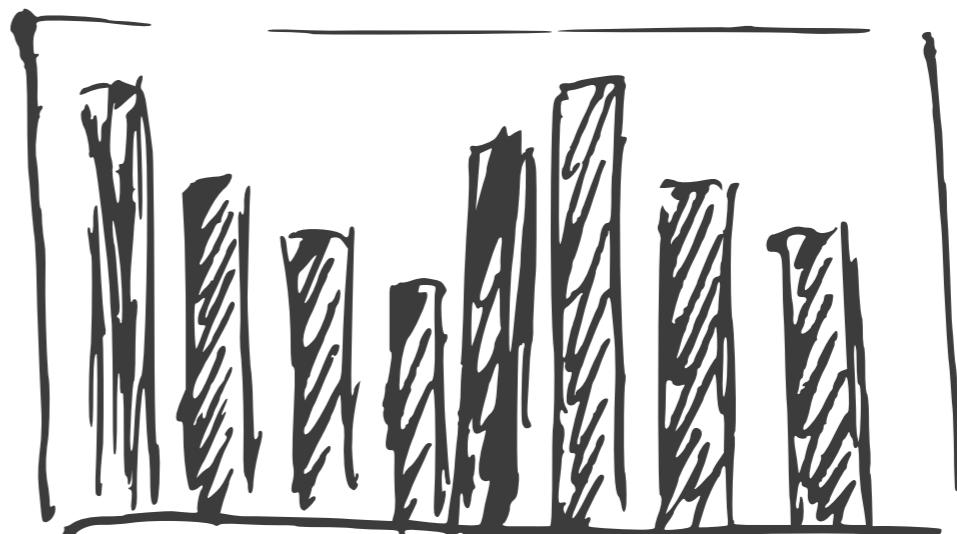

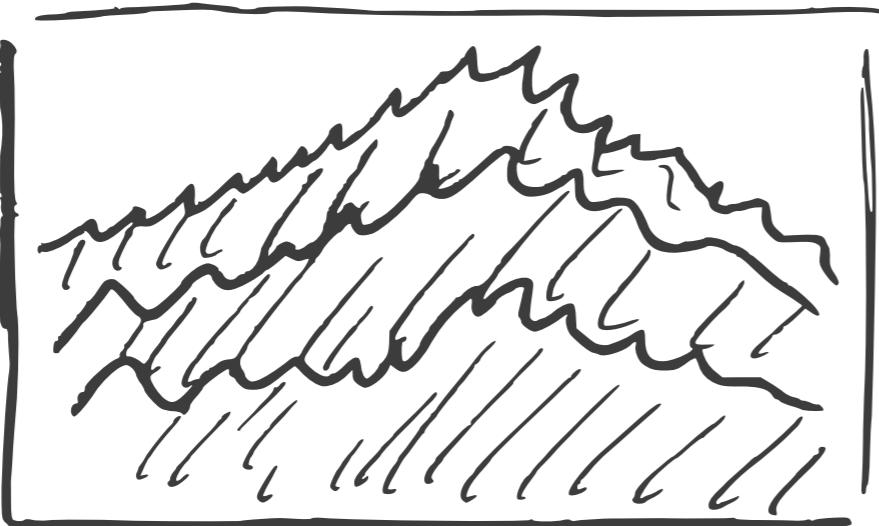

Grafana 3.x

- Improved plugin system
- grafana.net
- `grafana-cli`
- UX improvements

Grafana 4.x

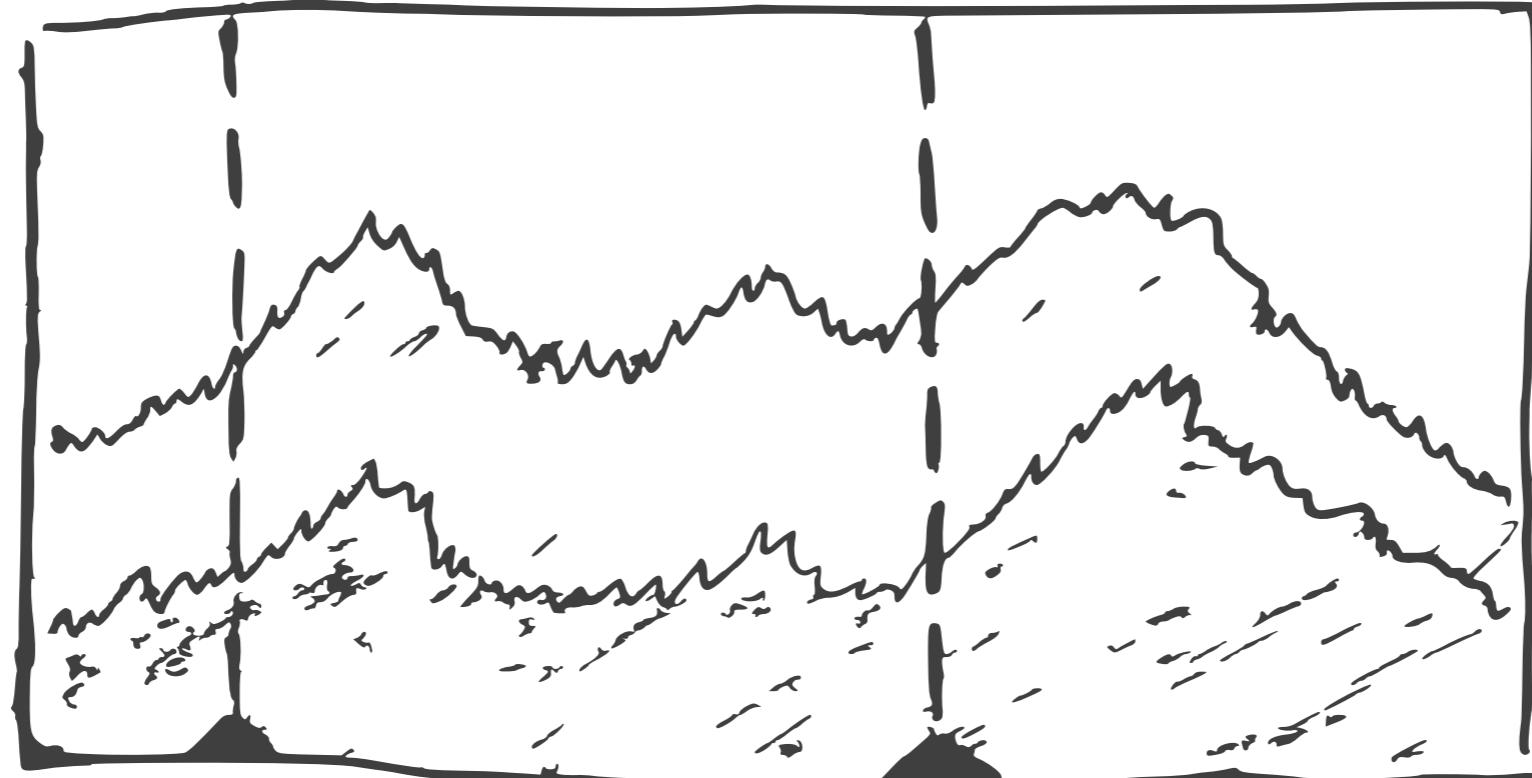

- Alerting
- Histogram
- Heatmap
- MySQL data source (alpha)

METRIC	AVG	MAX	MIN
loss	10	100	0
acc	60	45	6
mem	14	16	0.1
time	22	99	0
size	12	2	0

Prometheus

UNIFY

UNIFY

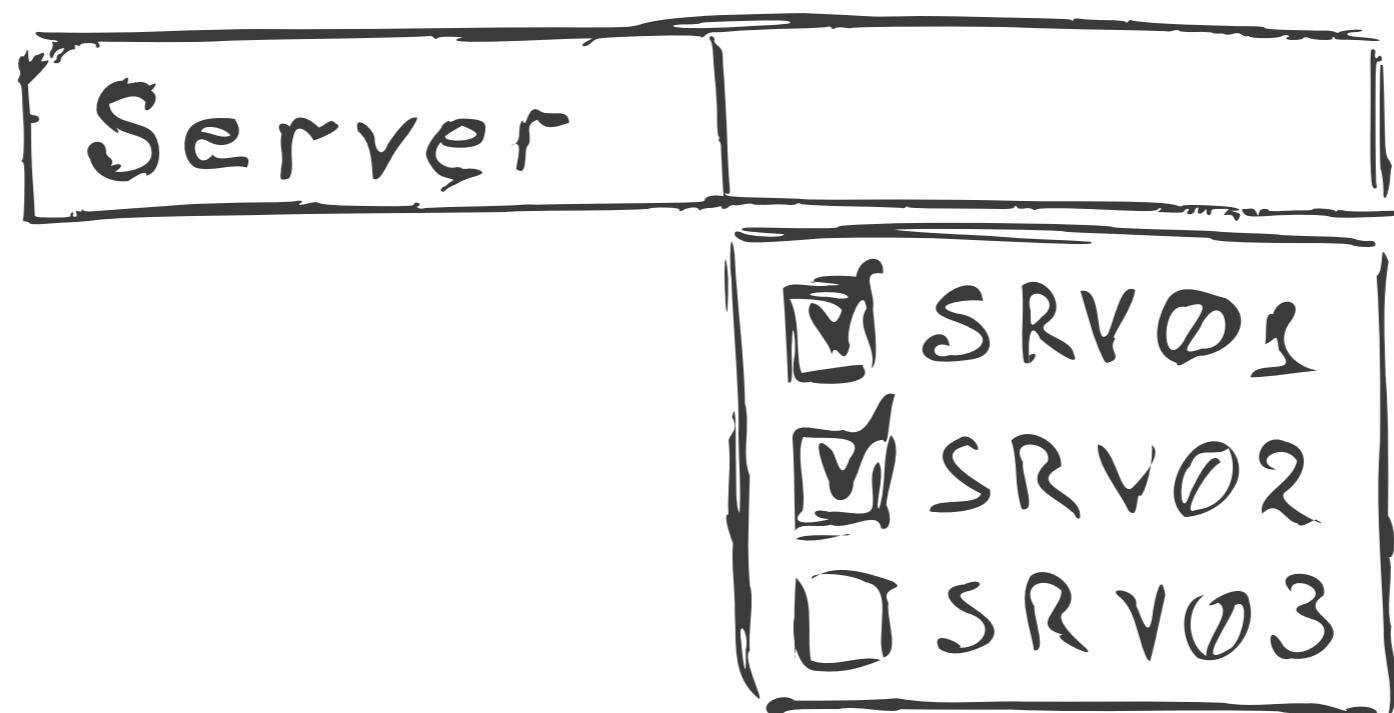

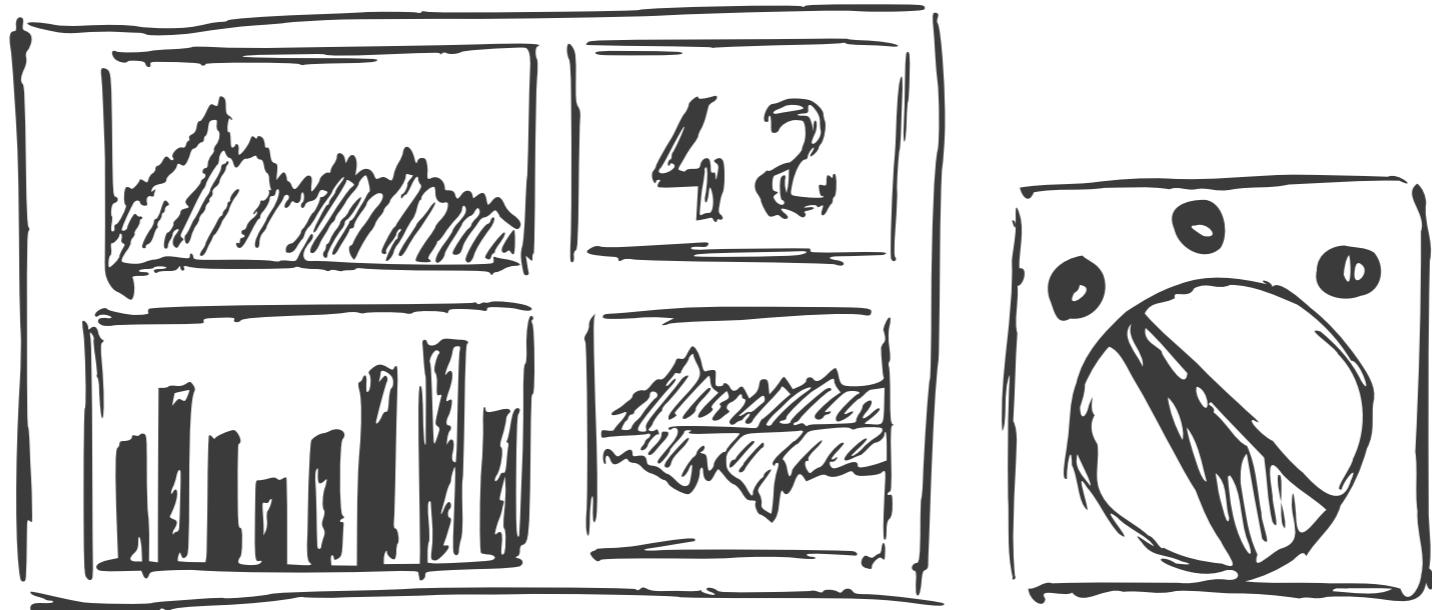

- 30+ data sources
- Mixed data sources

Native Support

Native Support

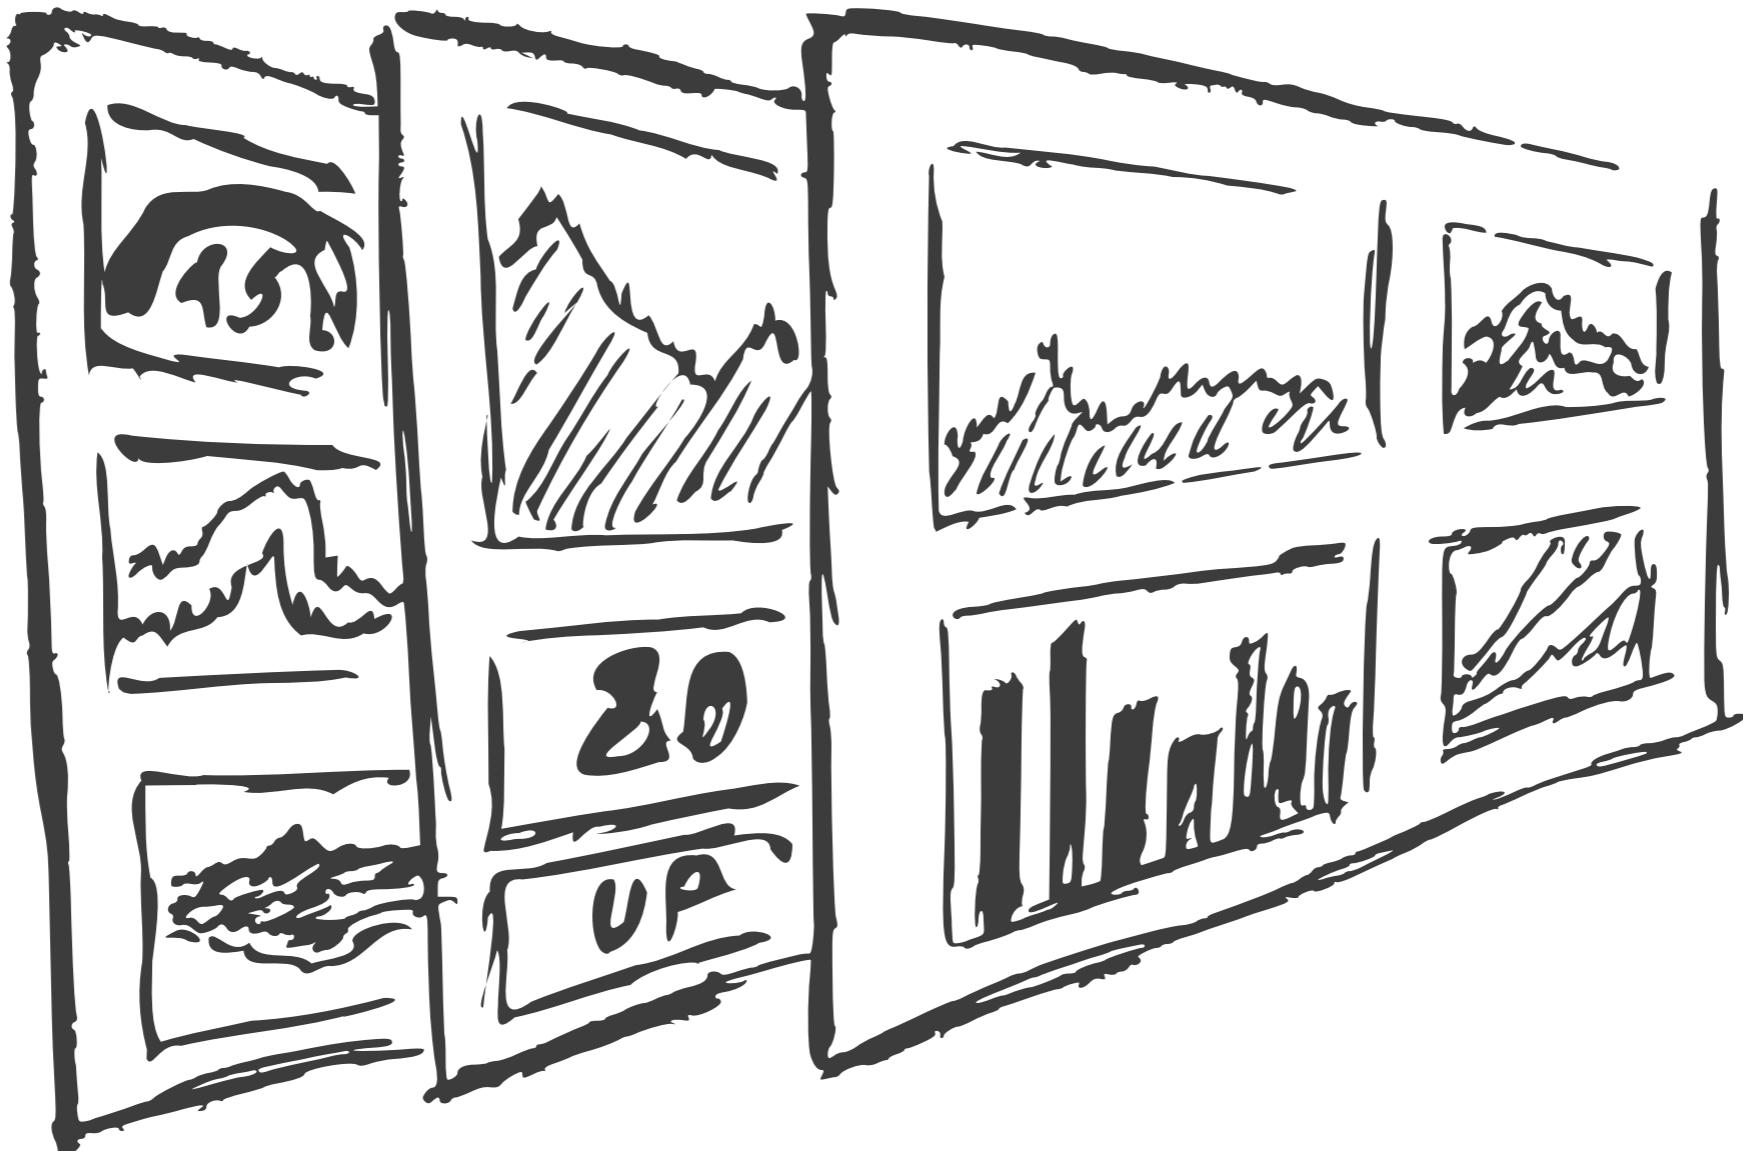

DYNAMIC

DYNAMIC

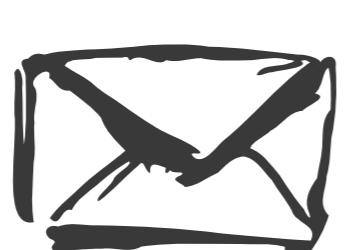

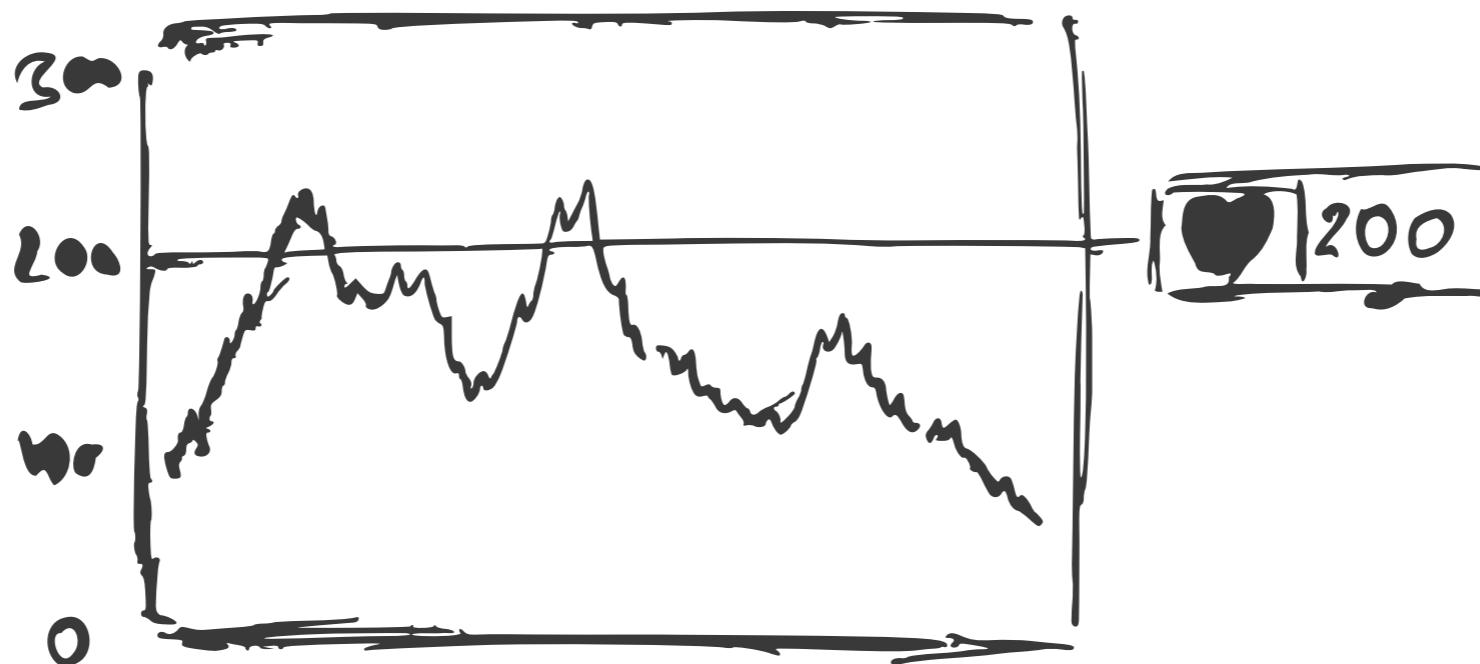

- Template Variables
- Ad hoc filters
- Scripted dashboards

COLLABORATE

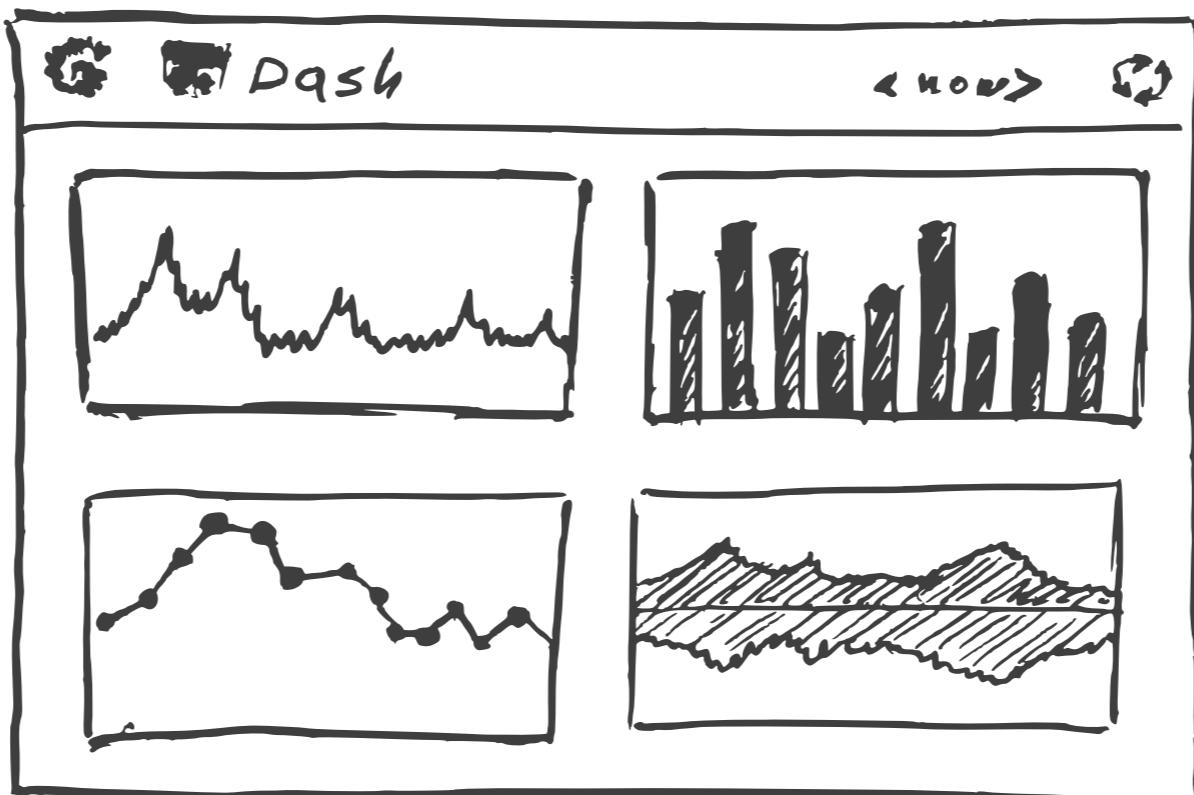

COLLABORATE

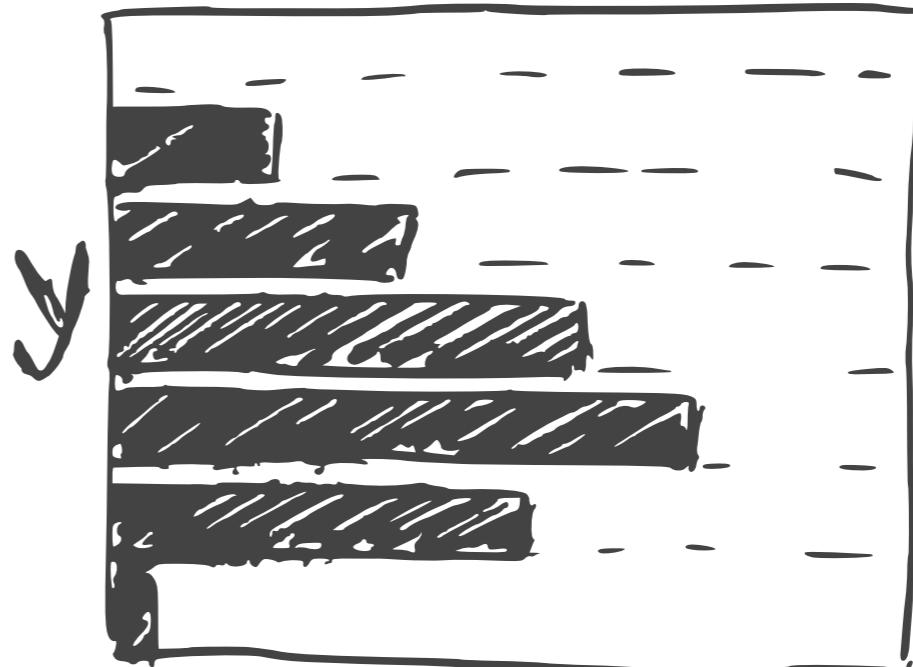

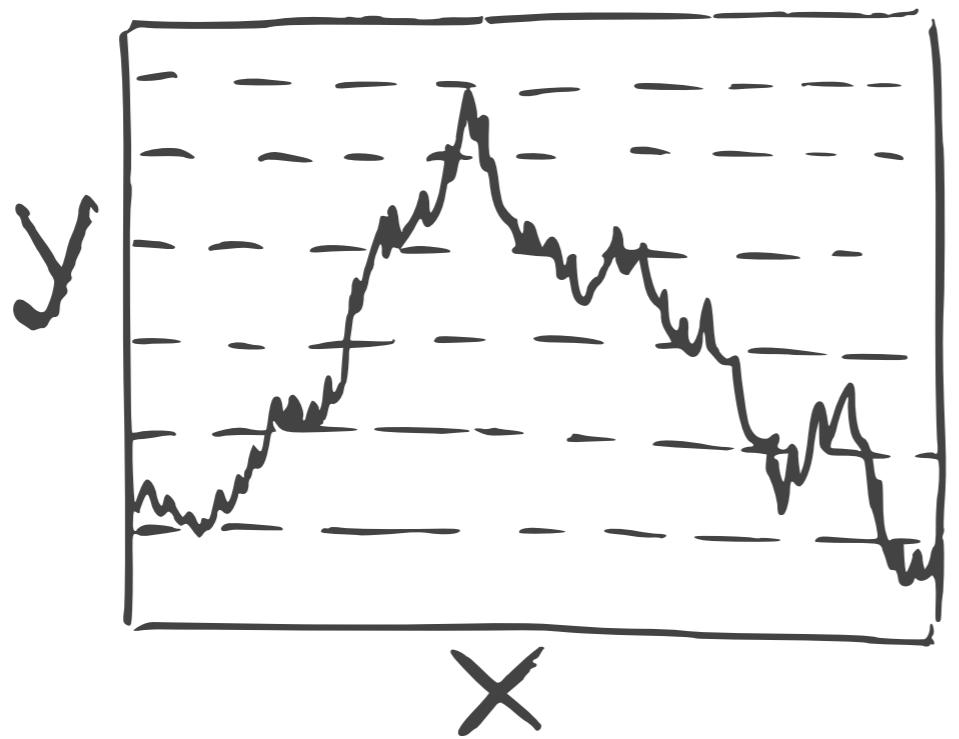

- Share dashboard snapshots
- Share dashboard on [grafana.com](#)
- Contribute to Grafana
- Open issue on [github](#)
- Write your own plugin

VISUALIZE

Histogram

Heatmap

ES heatmap

- Built on ES backend
- 1 Series for each bucket

- Prometheus histogram ?
- StatsD ?

TEMPLATING

TEMPLATING

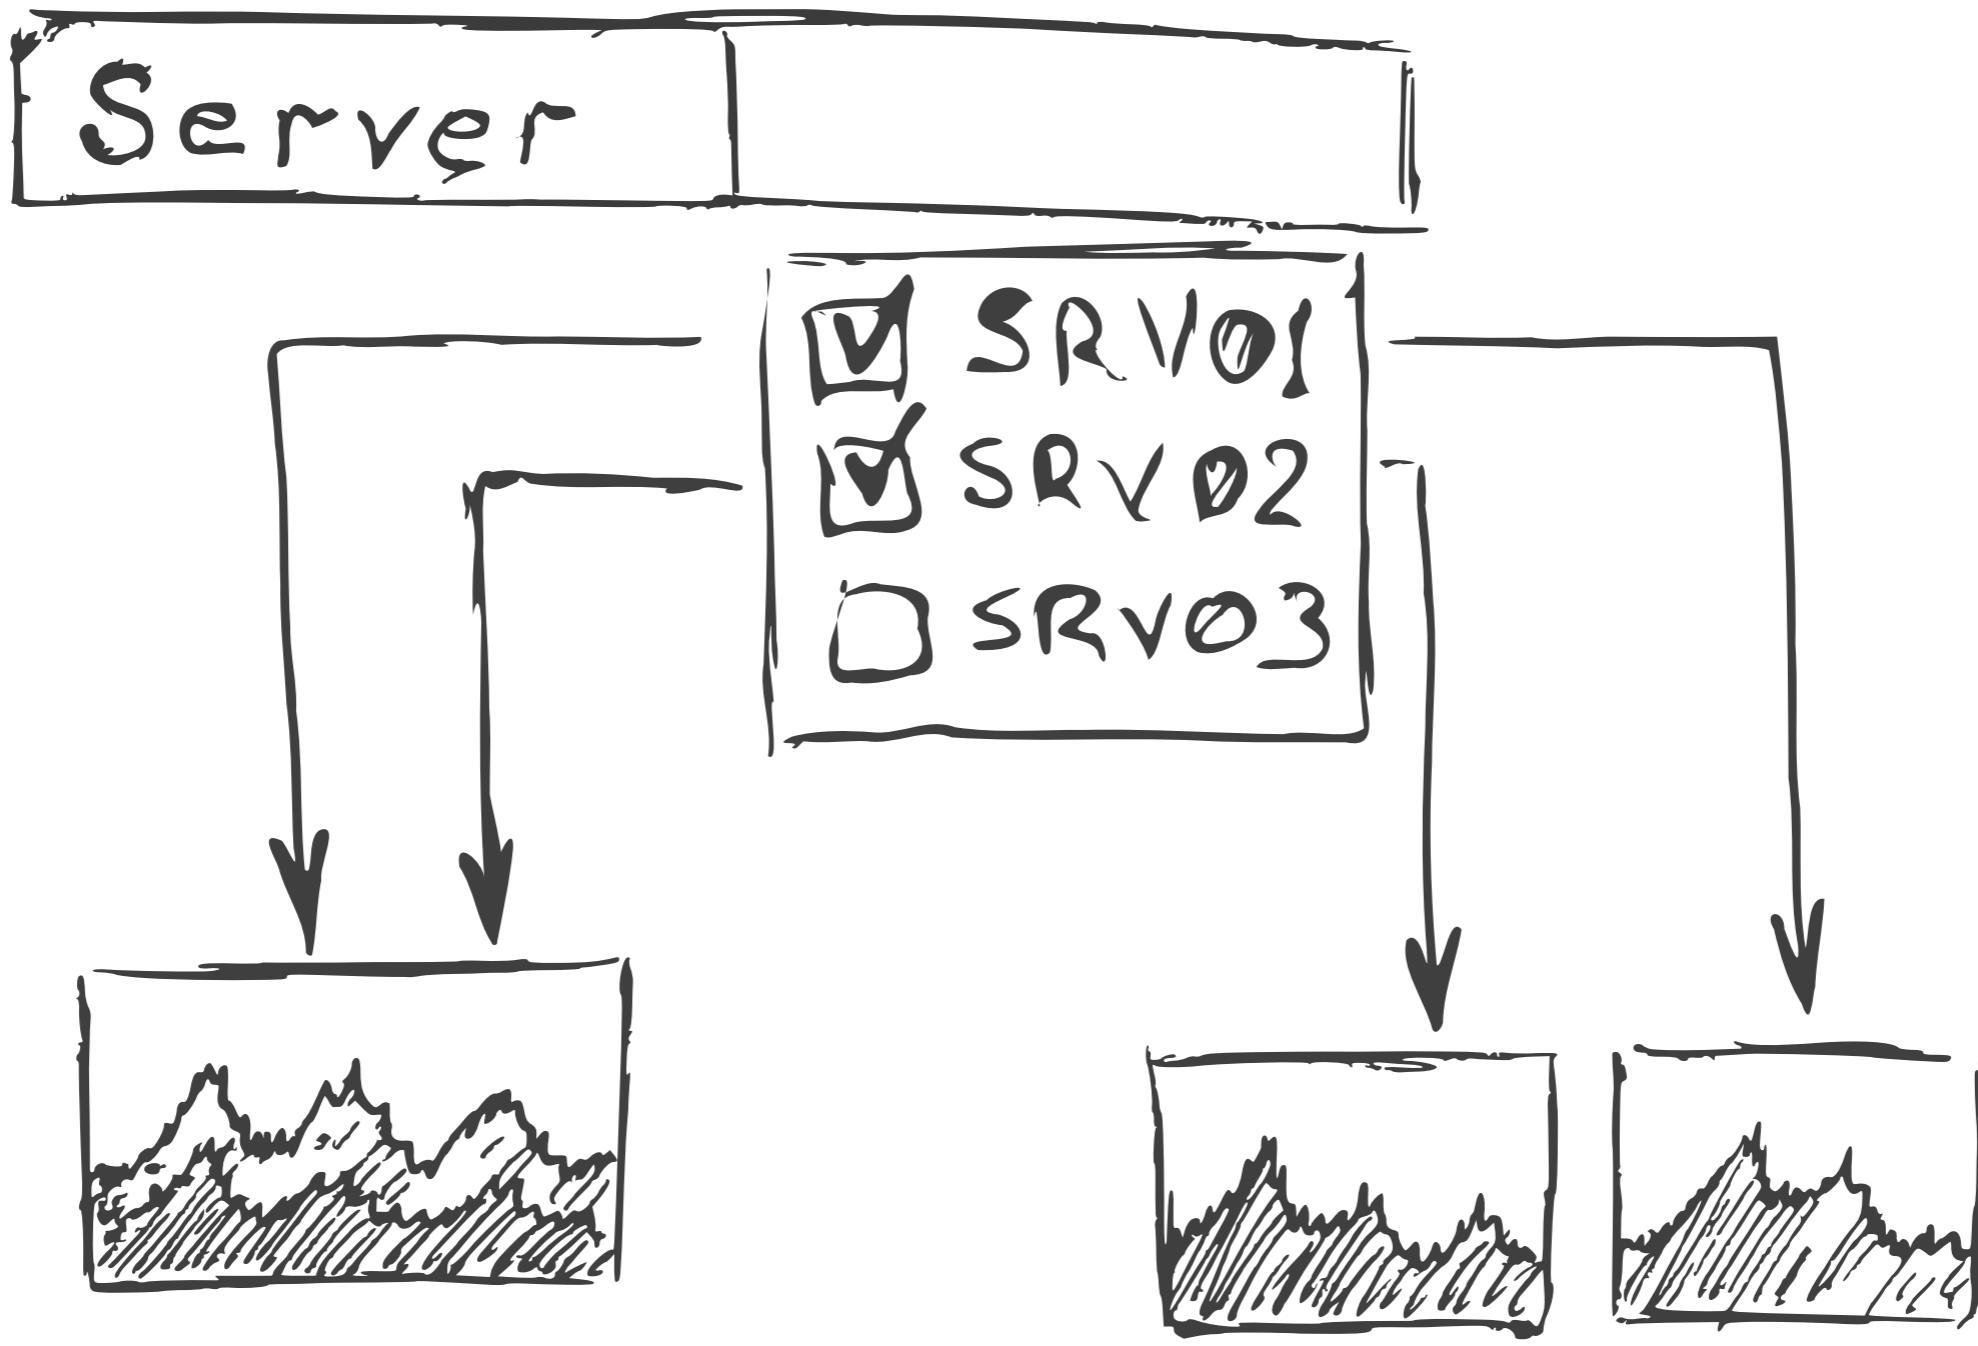

```
node_load1{instance="host1"}
```

\$host

```
node_load1{instance="$host"}
```

Template Variables

- Query
- Data Source
- Interval
- Custom
- Constant
- Ad hoc (Influx, ES)

Repeat panel

Multi-value variables

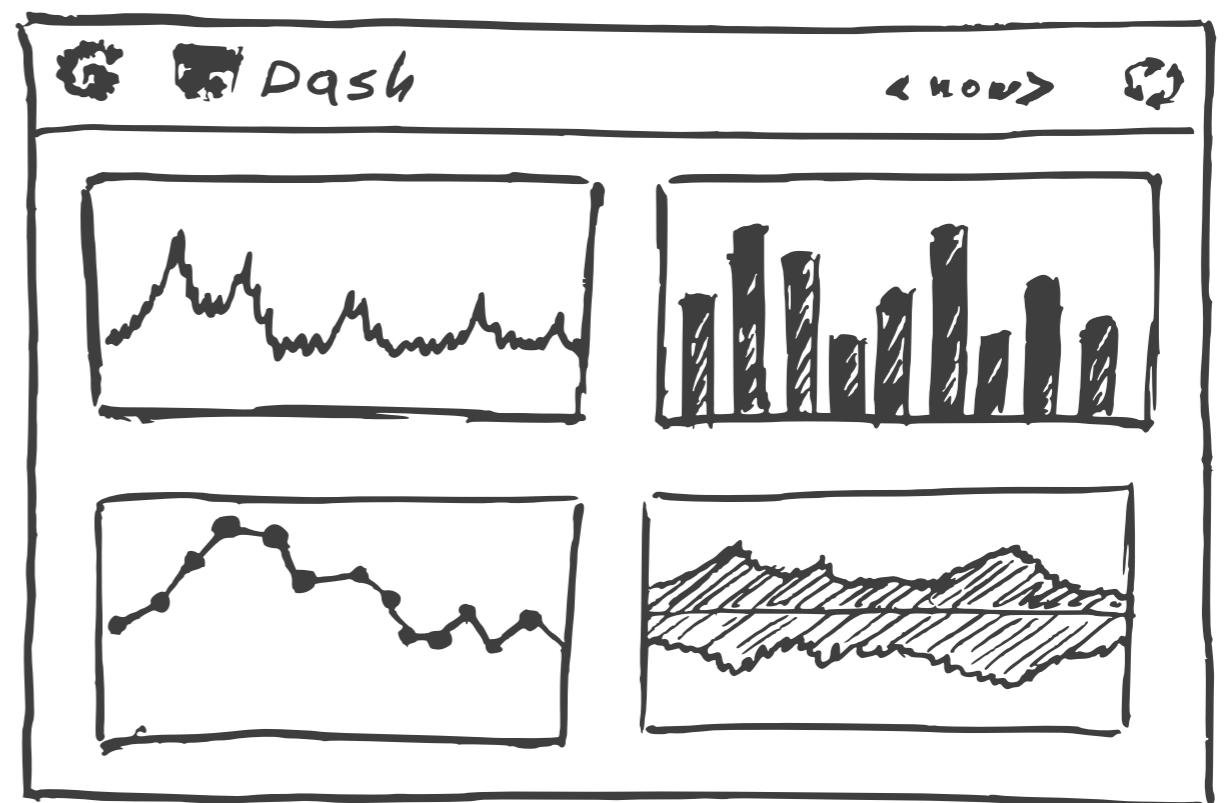

Variable interpolation

host1, host2, host3

- {host1,host2,host3}
- (host1|host2|host3)
- (“host1” OR “host2” OR “host3”)

Scripted Dashboard

{js} =>

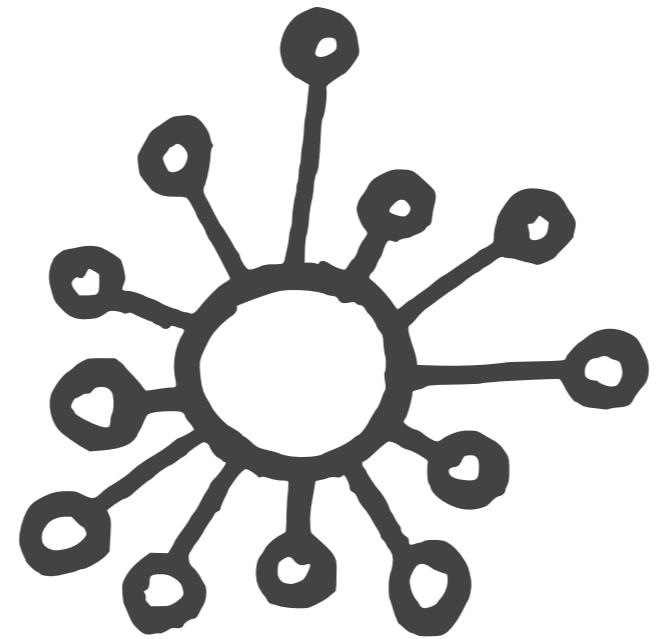

Scripted Dashboard

```
var ARGS,  
    $, jQuery, _,  
window, document,  
moment, kbn, dateMath,  
services = {  
  dashboardSrv,  
  datasourceSrv,  
  $q  
};
```

Scripted Dashboard

console.log(services)

ALERTING

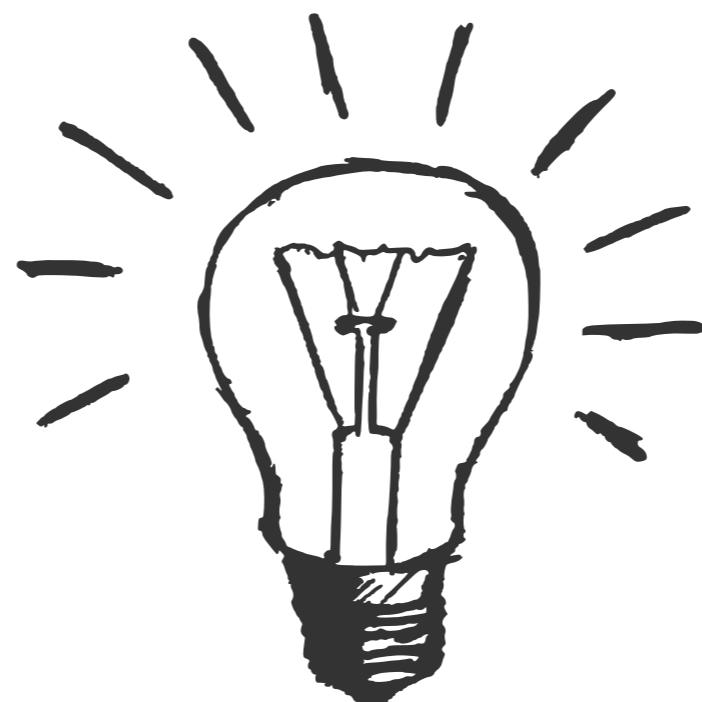

Alerting

Alerting Problems

- Alerts with template vars (#6557)
- Alert per series (#7832)
- Multiple alert generation (#6685)
- Clustering support (#6957)
- More data sources

COLLABORATE

Roadmap (WIP)

- Support for MySQL & Postgres
- User Groups & Dashboard folders
- Docs!
- Graph annotations

Roadmap

- Improved panel layout
- Backend plugins
- Time series transformations
- Reporting
- Web socket & live data streams
- Migrate to Angular2

Roadmap

- Dashboard revisions (done!)
- Clustering for alert engine (WIP)

timeShift

- Weekly
- Articles, links
- Plugins and Dashboards updates
- This week's Most Valuable Contributor
